## PRESIDENT HOOVER MAY VISIT TEXAS DURING OCTOBER

CALDWELL, June 6.—(P)—Introduction of defense testimony was started here today in the trial of Ed Goerner charged with slaying his wife in their farm home near Bastrop in April, 1927.

August Schiltz, neighbor of the Goerners, testified that several days after Goerner had been placed under arrest he had heard it talked that a state ranger and a deputy sheriff had chained Goerner to a bed in the room where Mrs. Goerner had met her death. Testimony for the state had developed that Goerner gave little assistance to officers. By JAMES L. WEST

AUSTIN, June 6. (AP)-Twenty specific charges embodying alleged misappropriation of state funds and alleged gross negligence of office were coupled with a resolution asking impeach ment of J. T. Robison, commissioner of the general land of-lice, placed before the house to-

day.

The accusations, growing out of a report of the land office investigating committee during the first special session, were made under oath by Rep. Grady Woodruff, De-

catur.

Rep. O. R. Van Zandt, Tioga, introduced simultaneously with Woodruff's charges a resolution asking the house to resolve itself into a committee to hear testimony involving official integrity of the commissioner.

At noon the membership found itself engrossed in a debate in which Woodruff and Van Zandt had urged indictment of Robinson, Rep. the big noise with the willow, securing two doubles and two singles in four times at bat. Wyatt,
Cen-Tex catcher, was next in line
in hitting honors, securing one double and two singles in four attempts.

A large nubmer of baseball fans were on hand for the encounter.

#### Emhouse Defeated Mineral Hill Nine

Although the Emhouse baseball nine only collected five hits during the game Sunday afternoon at Mineral Hill baseball ground, they defeated the Mineral Hill nine who secured only two hits. It was a hard-fought game throughout and was very exciting. The score was 2 to 1.

Derden for Emhouse was the winning pitcher, although the Mineral Hill pitcher turned in a fine

eral Hill pitcher turned in a fine game.

Derden not only pitched a fine game, but also got two of the five hits. Tinkle batted in the winning runs with one man out in the third inning.

Turner, first up, singled and Patten sacrificed out. Turner then stole third and Farmer hit to the pitcher who tried to get Turner at third. Both runners were safe. Turner then stole second and Tinkle single, scoring Turner and Farmer, which were the winning runs.

The Cotton Mill Junior baseball team won the right to meet the I. O. O. F. nine for the championship of the American Legion Junior Baseball League in Navarro County by handing the State Home entry a 7-8 walloping at the Municipal Park Wednesday afternoon.

The winner of the county cham-pionship will meet the finalist from Limestone county in the bi-county championship tilt, it was announc-ed by Beauford H. Jester, state di-rector.

The White's Chapel nine continu ed its winning ways by handing the Pickett Independent baseball team a 2-2 trimming Sunday after-noon on the Pickett diamond.

The Zions Rest team presents a formidable array of baseball talent, having on it's roster some of the best amateur baseball players in Corsicana, and has won two out of the last three games played since their addition. Sunday afternoon, the Black Hills and Farmer nines were victimized by the hard-hitting North Corsicana boys, but the Sentex Refiners of Angus handed the Zions Rest nine a 3-2 defeat Tuesday afternoon.

The Waco Cubs are still slipping, and now rest in third place, two and one-half games from the top. The Houston Buffs humbled the Cubs in all three games in the series played in the South Texas city.

Nothing has been heard lately of Nothing has been heard lately of the activities of the Bazette baseball team. The last time we saw Tom Warren, the manager, he stated that the team was desirous of matching games with teams in the western portion of the county, and that the games could be arranged on a home and home basis. Any team wishing to arrange a game can get in touch with Mr. Warren by writing him, Kerens, Rt. 1, or phoning him at the Tramel and Albritton store at Bazette. WASHINGTON, June 6.—(7)—
The task of outlining policies and mapping out a program today confronted President Hoover's national commission on law observance and enforcement.

Called for its second series of meetings since its organization, it had a nine-room suite of offices in a building near the department of justice at its disposal, and scores of government surveys and statistical studies and hundreds of letters from all parts of the country proposing various plans for the curbing of lawlessness were ready for its consideration. Conferences with a number of government officials interested in its problems also had been arranged.

The committee rejected a combination bill by Reps. The unofficial contest for producing the largest fig is now at a tie. Curtis Todd submitted from the Butler farm a fig as large as a pear and weighing five ounces. The fig was about two and a half inches thick and three inches long.

Tom Sharp, 1520 Woodlawn, from a three year old tree submitted a fig of equal weight and almost three inches thick. Both figs were of the Magnolla variety.

From various sources it is learned that figs are doing unusually good this year and the surprising thing to interested people is that more figs are not grown for home use in this section.

EXANS have talked Texas again with splendid results. The Carnation Milk Products Company, after a tour of intensive investigation of the possibilities of dairy development in Texas, is now building a \$300,000 milk condensery at Schulen-

At the time of making the announcement of the location of the Schulenburg condensery, the Carnation Milk Products Company also announced the purchase of a building site at Sulphur Springs. This action is indicative of the sound faith which this great company has in the possibilities of milk production in Texas.

The coming of Carnation to Texas, right on the heels of the coming of Borden, brings to this state the world's largest buyers of whole milk. These

and other milk and milk products plants will pay millions of dollars to Texas farmers each year. There is probably no other type of manufacturing plant which would sustain a payroll of such economic significance.

As Carnation and other great organizations extend their activities in Texas, our Texas farmers will gain a new appreciation of the solid value of the dairy cow as a source of daily income; and business will gain a new respect for the economic importance of manufacturers who use farm products as raw material.

The Texas Power & Light Company takes this occasion to commend the foresight of the Carnation Milk Products Company in coming to Texas. This Company also expresses its commendation of the efforts of those Texans who worked so diligently in helping the Carnation executives in making their decision to come to Texas.

It is this sort of "talking Texas" which means much to the rapid and sound development of Texas. Texans, let's talk Texas!

Charges Out of Date.

Rep. DeWolfe contended that the supreme court of Texas had held that an official could not be removed for acts committed prior to his present term and that none of Woodruff's charges except general incompetency covered the commission's present tenure of office.

"Robison has had ample opportunity to enrich himself during his long years of service in the land office through fraud, yet in old age he still is a poor man," DeWolfs contended. "I believe that declining years and poor health have dimmed his perspective toward a public policy, and that he is guilty of nothing more than indiscretion." Charges hurled today against the Charges hurled today against the official were much like those revealed yesterday when the first broadside was fired at Robison. Woodruff's complaint set out that since 1913 the land office chieftain had directed reappraisement of school lands with a loss of \$5,183,-517 to the public free school fund through reduced valuations.

Used State Funds.
It is also charged against Robison that after passage of the 1925 reappraisement act he unlawfully converted to his own use state funds amounting to \$12,245 and ttah on at least three occasions he paid personal debts from state funds.

funds.

On Sept. 29, 1925, the commissioner is purported to have paid small sums to the Alvarado Bulletin and Lufkin Daily News for political adveftising, and in August, 1925, \$300 to Dr. Charles S. Venable for professional services. The commissioner's son, J. M. Robison, Houston, is alleged to have been the recipient of state funds totaling \$1,000 paid by Robison, August 31, 19925. The commissioner's wife is asserted to have shared in \$100 of the state's funds.

Van Zandt's resolution, which further charges that the commissioner sought gifts in the form of refunds from reappraisements as late as May 27, after the investigating committee had condemned the practice, asked the speaker appoint three members to obtain from the membership an attorney to pass on admissibility of testimony. The speaker is authorized also to appoint a committee to select attorneys to prosecute the commissioner, who would be allowed counsel of his own selection. On Sept. 29, 1925, the commis-

The demonstration is being arranged at Camp Wanica on the McKie ranch east of Mildred by County Agent Henry Gentry. Every person interested in pecan budding in the county is invited to meet at the Chamber of Commerce at the Chamber of Chamber of Commerce at the Chamber of Cham

Willmann believes the avera e native pecan county in Texas, through enterprise and scientific methods, can increase the present pecan production by ten times in the course of ten years, he does not foresee any immediate prospect of over production.

Mr. Willmann pointed out that while nuts produced outside of Texas, such as the English walnut, may be purchased at local stores on a year around basis, that the desirable pecans were usually off

desirable pecans were usually off the market within a short time after production. He believes that an increase in pecan production will see a commensurate increase in market demand.

Navarro county is greatly favor Navarro county is greatly leveled from a pecan standpoint, said Mr. Willmann, who has made numerous visits here and is well accounted with the county. This county not only has considerable creek and bottom lands but much of the upland soil is adaptable to pecan growing. Mr. Willmann cited the advantages of Texas pecan lands over lands in the irrigated sections of California, which range
